

SEAN LOCKLEAR

January 18, 2006

(Open...) “I would like to start off by apologizing to the community and everybody. I’m not proud of the things I’ve done. I apologized this morning to the team and the coach, but I want to apologize again to the community, the fans and the NFL. This is not characteristic of my actions and I apologize. I want to put this behind me today so the team and I can get ready for the Panthers on Sunday. I’d also like to say that the team and coaches are behind me 100%. We’re going to put this behind us and get ready for the Panthers on Sunday.”

(On the importance of playing in the game Sunday...) “I think it is huge. We’ve been playing together the whole season so we don’t want any distractions, but this did come up so we want to put it behind us and get ready.”

(On the reaction of his teammates...) “They were behind me. They were supporting me. They didn’t understand what happened, but they’re behind me with whatever is going to happen with this situation.”
