DOLPHINS-BILLS MOVES BACK TO 1:00 PM ET ON DEC. 17

The NFL has announced that the December 17 Miami Dolphins at Buffalo Bills game will return to its original 1:00 PM ET kickoff time on CBS.

The league had moved the game to 4:05 PM ET earlier this week.

"We spoke to CBS and told them we did not believe the shift to a later start time was in the fans' best interest," a league spokesman said. "We regret the inconvenience that we may have caused fans who are planning to attend the game or watch on television that day."

Following is the final Week 15 NFL schedule:
